HOW TO USE THIS GUIDE

Not all city streets are listed in this guide. The City of Richmond, Indiana is primarily laid out in a grid system, with lettered and numbered streets. Streets in this guide are streets that have a name other than a letter or number. Lettered Streets run East-West and numbered streets run North-South. The prefixes, N, S, NW, SW, are used to identify and differentiate these streets. The North-South division line throughout is Main Street. Streets east of the Whitewater River have prefixes of either N or S, and streets west of the Whitewater River have prefixes of NW or SW.

The "named" streets in this guide are listed in alphabetical order. Find the desired street in the index, in the left column. Then one will find a written description of the location of the street in the center column. Then, using the Map Section-Grid Number listed in the right column, one can refer to the maps located on pages 35-39 to visually find the desired street. Note that the City Map has been divided into four sections; Northwest (NW), Southwest (SW), Northeast (NE), and Southeast (SE). Each section has then been overlaid with a number grid for easy location of the streets. Additionally maps of the area trailer parks, college campuses, and the Richmond State Hospital Campus are located on pages 40-51.

DISCLAIMER

This publication provides general information about the location of streets/roads, mobile home parks, college campuses, and The Richmond State Hospital Campus in Richmond, Indiana. It is provided with the understanding that the City of Richmond, Department of Public Works and Engineering, does not intend it to be viewed as a legal document.
