

Fireworks Retail Standards (FR)

5.30 FR-01: Fireworks Retail Standards

This Fireworks Retail Standards Section applies to the following zoning districts:

The intent of the Fireworks Retail Standards is to regulate the retail sale of fireworks to protect the health, safety, and welfare of the residents. The following standards apply:

- A. Location: Fireworks sales shall be located in a primary structure equipped with an appropriately sized and charged sprinkler system.
- B. Separation: Fireworks sales shall not locate within a 100 foot radius of a residential district, gasoline station, storage tank and any other land use that contains highly flammable materials on-site. The distance is measured from the nearest property line to nearest property line in all directions.
